

BIOGRAPHY

Vince Bilardo,

**Chair, Constellation Systems Analysis Integrated Discipline Team,
NASA Langley Research Center**

Mr. Bilardo has over 22 years of experience as a program/project manager, system engineer/analyst, and subsystem engineer in the federal government, having worked at four NASA centers and two DoD installations. He holds degrees in Mechanical Engineering from Case Institute of Technology. He is currently a project manager at NASA Langley Research Center, having managed the multiple award-winning Systems Analysis Project for the Next Generation Launch Technology Program, which transitioned in February 2004 to Project Constellation as part of the new agency Exploration Vision. Mr. Bilardo conceived and initiated the practice of organization analysis as a distinct discipline of systems analysis by forming and leading the Organization Discipline Team under Project Constellation. He led a team which successfully applied Dependency Structure Matrix technique to help formulate the Integrated Discipline Team structure for Constellation use in FY05 and beyond.
